Before you recycle!

Some items cannot be recycled if they are contaminated (even if they have a recycling symbol!)

[Take the checklist](#)

[Skip the checklist](#)

Recycling Checklist

Cleanliness

Have you:

- Rinsed or washed the Polypropylene item thoroughly to remove any food residue or contaminants
- Ensure the item is completely dry before placing it in the recycling bin. Wet items can lead to mold and contamination.

Cleanliness helps prevent contamination in the recycling stream.

I dont know

No

Recycling Checklist

Mixed Materials

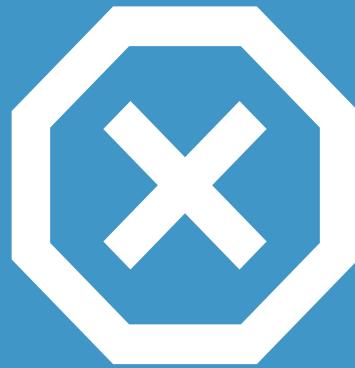

Have you:

- Ensured that only Resin Code 5 portions of your item will be put in your recycling Bin.
- Do not mix them with non-recyclable items, such as plastic bags or Styrofoam, as this can lead to contamination..

Yes

I dont know

No

Not ready to be recycled!

While this item can technically be recyclable, it's not in a recyclable state. We recommend throwing it away as general rubbish in the **red bin** or following the recycling checklist to get the item into a recyclable state.
